

## GNSS LAND LEVELING SYSTEM

### W20 Pro

#### Visualization

Visible Working Footprint and Topographic Map. Increase 30% Leveling Efficiency

#### Compatibility

Match Multiple Scraper

#### Strong Adaptability

Sand and Dust Weather Operations

#### Precise Comprehensive

±2.5 Precision Level stop Leveling

#### Mobile Base Station

Simple to Set Up

#### Precise and Efficient

Increase 20% working efficiency

#### Scalability

Scalable Auto-Steering, Guidance, Smart Sprayer

## System Components

T100 Smart Tablet

Build-in Radio Modem, IP67, 10.1 inch Screen

High Precision Controller

HD Camera

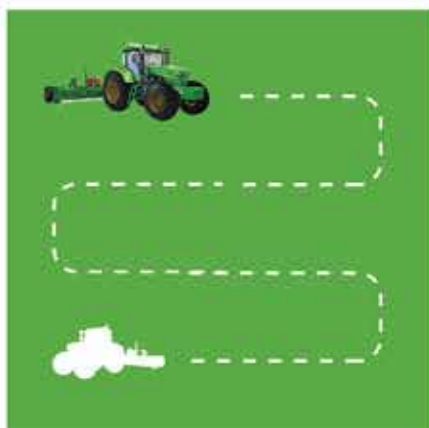

GPS500 Antenna

## Feature

1. Digitizing, Visualization

2. Data Collection, Automatic Setting Datum Plane

3. Datum Plane Real Time Fine-Tuning

## Application

**Shanghai AllyNav Technology Co.,Ltd**
